

WE SOLVE BIG PROBLEMS.

We design and build enterprise technology that fosters innovation and drives business outcomes.

Gartner

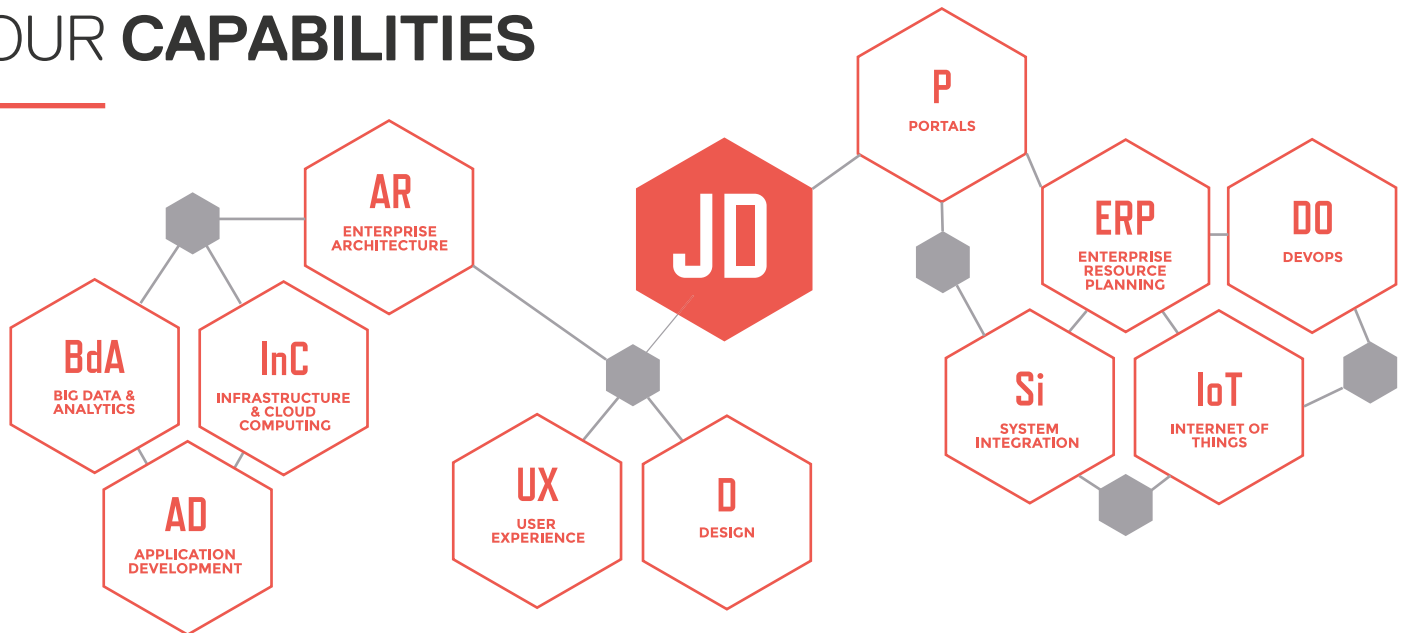

Named a 2017 “Vendor to Watch” and “Cool Vendor” by Gartner*

LET’S MAKE YOU A HERO

We transform the largest organizations in the world by developing technology solutions that perfectly align with their business goals.

We want to make you a hero by providing agile, inventive, and purposeful answers to the problems your business faces. Our team offers a full suite of capabilities that rival the largest firms in the world, without the added costs and extended timelines.

OUR CAPABILITIES

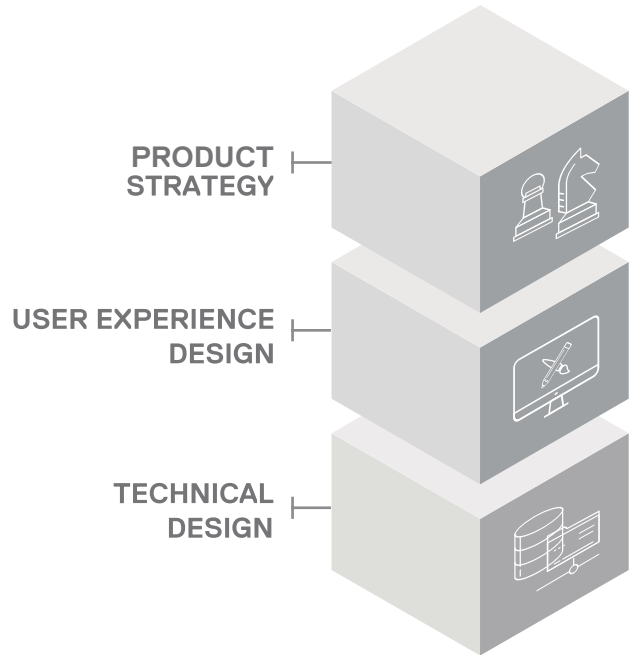

OUR RADD PROCESS

RADD stands for Rapid Alignment and Design & Development.

Rooted in the scientific method, our approach drives high-quality output and precise alignment with business and technology objectives.

We combine insight into your unique challenges (RA) with our engineering expertise (DD) and platform (XFORM) to execute outstanding solutions that meet your needs, ensuring strategic transformation quickly.

OUR XFORM TECHNOLOGY

By leveraging our proprietary platform, XFORM, your organization will benefit from solution creation that has a shortened foundational building period, and that rapidly connects to vital legacy systems. This translates into mitigated development risk and the enablement of future innovation.

XFORM FOUNDATION

All of the key components needed to establish a clean, scalable, secure, and flexible enterprise application.

XFORM BRIDGE

Enables seamless integration with existing enterprise assets to make integration initiatives effective.
