

INTRODUCING XFORM.

A platform by Janeiro Digital that fosters enterprise innovation and powers digital transformation.

Named a 2017 "Vendor to Watch" and "Cool Vendor" by Gartner*

ACCELERATE YOUR INNOVATION GOALS

Don't let a lack of supporting infrastructure hold back your innovation initiatives.

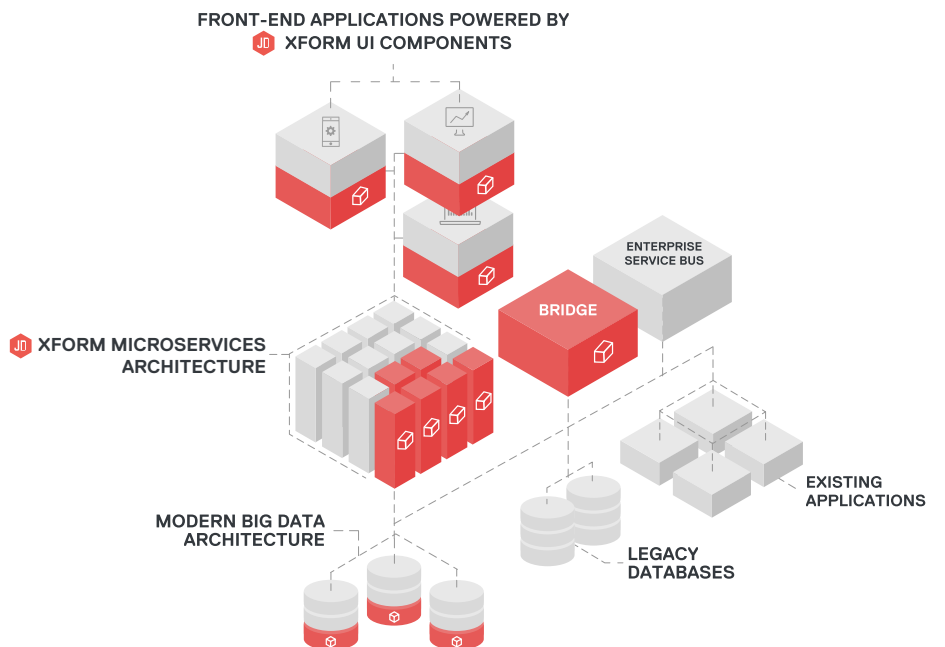

XFORM enables the most useful foundational components for a solution to be brought up quickly and efficiently, forming the basis for the work to come. XFORM is built up of two fundamental parts, Foundation and Bridge.

XFORM FOUNDATION

All of the key components needed to establish a clean, scalable, secure, and flexible enterprise application.

XFORM BRIDGE

Enables seamless integration with existing enterprise assets to make integration initiatives effective.

TRANSFORMATION WITHOUT **TECH DEBT**

Delivering continuous value requires the ability to regularly create new technology without adding technical debt that will hinder future innovation.

This issue of technical debt was one of the key drivers behind our creation of the XFORM platform. Using a flexible microservices architecture, XFORM enables us to rapidly build out reliable and robust enterprise applications and connect them with existing systems and data in a standardized, scalable way.

ARCHITECTURE & **KEY COMPONENTS**

- Modular UI Components
- Microservices Architecture
- Big Data Architecture
- Secure Componentry
- Cloud Positive
- Production-Ready

XFORM **DEVELOPMENT ROI***

24% SAVINGS APPLICATION DEVELOPMENT COST

26% SAVINGS ONGOING MAINTENANCE & SUPPORT

**Average outcome based on \$2M project.*
